Global perspectives on the structure and dynamics of liquids and mixtures: Experiment and simulation

It is a pleasure to announce the annual EMLG-JMLG Conference to be held at University of Lille 1 between 9 and 13 September 2013. The theme of the conference is intended to encourage participants to present the most recent experimental methods, theoretical approaches and simulations leading to better understanding of the structure and dynamics in the following areas :

- Liquids and solutions at normal and supercritical fluids
- Clathrate hydrates formation from liquid water or ionic liquid phases
- Ionic liquids and their mixtures
- Supercooled liquids and glassy systems
- Biological systems

The features of the conference

- Leading speakers
- A "young" Scientists contribution
- Sponsorship for two students bursaries (conference fee)
- A poster session with EMLG-JMLG sponsored cash prizes for the three best posters

Invited speakers
